RE: ANTIDUMPING DUTY ORDERS AND ADMENDMENTS TO FINAL  
DETERMINATIONS; OSCILLATING FANS & CEILING FANS  
FROM PRC (A-570-205), (A-570-206)

1. The Department of Commerce published in the Federal Register on October 25, 1991, its final determinations of sales at less than fair value regarding oscillating fans and ceiling fans from the PRC. On December 2, 1991, the International Trade Commission notified the Department that such imports materially injure the respective U.S. industries. On December 9, 1991, the Department of Commerce published in the Federal Register the amended final determinations and the antidumping duty orders on oscillating fans and ceiling fans from the PRC.

2. Imports covered by these investigations constitute two separate classes or kinds of merchandise: (1) oscillating fans; and (2) ceiling fans.

Oscillating fans are electric fans that direct a flow of air using a fan blade/motor unit that pivots back and forth on a stationary base ("oscillates"). Oscillating fans incorporate a self-contained electric motor of an output not exceeding 125 watts.

Ceiling fans are electric fans that direct a downward and/or upward flow of air using a fan blade/motor unit. Ceiling fans incorporate a self-contained electric motor of an output not exceeding 125 watts. Ceiling fans are designed for permanent or semi-permanent installation.

Window fans, industrial oscillating fans, industrial ceiling fans, and commercial ventilator fans are not included within the scope of these investigations. Furthermore, industrial ceiling fans are defined as ceiling fans that meet six or more of the following criteria in any combination: a maximum speed of greater than 280 revolutions per minute (RPMs); a minimum air delivery capacity of 8000 cubic feet per minute (CFM); no reversible motor switch; controlled by wall-mounted electronic switch; no built-in motor controls; no decorative features; not light adaptable; fan blades greater than 52 inches in diameter; metal fan blades; downrod mounting only--no hugger mounting capability; three fan blades; fan blades mounted on top of motor housing; single-speed motor.

3. Oscillating fans are provided for under HTS subheading 8414.51.0090. Ceiling fans are provided for under HTS subheading 8414.51.0030. The HTS subheadings are provided for convenience and Customs purposes. The written description remains dispositive as to the scope of product coverage.

4. For further reporting purposes these cases have been assigned investigation number A-570-807. This number should be used when dealing with the Department of Commerce only. The Customs identification numbers (see below) are to be used for Customs

identification purposes and blue line reports.

5. Based on the results of our amended final determinations, you should terminate the suspension of liquidation on entries of oscillating fans by Wuxi Electric Fan Factory. In addition, you should release all cash deposits or bonds posted on entries of Wuxi's oscillating fans. Based on our amended final determinations, we have also revised the margin for CEC Electric Mfg Co and the "all others" rates for both oscillating fans and ceiling fans, as indicated below.

In addition, the U.S. Customs Service shall suspend or continue to suspend liquidation of all entries of the following manufacturers, producers and exporters that (except for those with 0% or de minimis margins) are entered or withdrawn from warehouse, for consumption on/or after October 25, 1991, and shall require a cash deposit equal to the estimated amended final margin percentages listed below:

MANUFACTURER/PRODUCER NUMBER	CUSTOMS ID	FINAL MARGIN PERCENTAGE	EXPORTER
---------------------------------	------------	----------------------------	----------

Oscillating Fans:

Esteem Industries, Ltd.	A-570-205-001	0.79%
